NOTIFIABLE DISEASES

Vancomycin resistant enterococci (VRE) and Other bacterial meningitis have been added to the Notifiable Diseases list as reportable. Drug-resistant *Streptococcus pneumoniae* (DRSP) is now also required to be reported by all hospitals, physicians, and laboratories. *Escherichia coli* 0157:H7 is the only strain of *E. coli* now reportable.

The diseases and conditions listed below are declared to be communicable and/or dangerous to the public and are to be reported to the local health department by all hospitals, physicians, laboratories, and other persons knowing of or suspecting a case in accordance with the provision of the statutes and regulations governing the control of communicable diseases in Tennessee.

<ul style="list-style-type: none"> * (a) Acquired Immunodeficiency Syndrome (AIDS)  (b) Anthrax  (c) Botulism - all types (d) Brucellosis (e) Campylobacteriosis - outbreaks only (f) Chancroid (g) Chickenpox - number of cases only (h) Chlamydia trachomatis  (i) Cholera  (j) Cryptosporidiosis  (k) Diphtheria (l) Disease Outbreaks <ul style="list-style-type: none">  1. Foodborne  2. Waterborne 3. Related to industrial substances 4. All other outbreaks (m) DRSP (Invasive Drug-resistant <i>Streptococcus pneumoniae</i>) (n) Ehrlichiosis  (o) Encephalitis, Arboviral <ul style="list-style-type: none"> 1. California 2.
